

We want to help you make a difference

AFSL makes it easy for you to contribute to the welfare of the local and global community. In our free 'eco check-up' you can learn ways to reduce your eco footprint.

We can work with you through:

- In-home visits
- Drop-in advice sessions at libraries and community centres
- School presentations and classroom/after school activities
- Information stands at local events
- Local Action Groups, e.g. recycling, fair trade, energy efficiency

If enough people take a single step the world will be changed forever
